Himadri

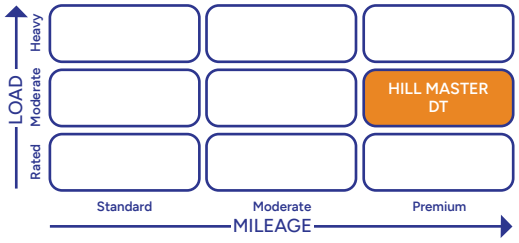

BIRLA TYRES

HILL MASTER DT

High Mileage with Moderate Load

- Aggressive Tread Pattern: Extra traction between the tires and the road, allowing the vehicle to transfer more engine power to the ground without slipping.
- Optimised Tread Mass: Better Load distribution and ensure smooth and even wear.
- Advanced Hill service Tread compound:
  - Superior Performance in high slip hill terrain.
  - Less wear & tear in frequent brakes and acceleration in stiff gradient during ascent & descent
- Strong shoulder geometry: Long-Lasting Performance and Reliability.
- Optimized ply insulation: Excellent re-tread ability.
- Robust Nylon Construction with Tough Bead Profile: Offering outstanding impact resistance and long-lasting durability.

*Truck for Hilly Terrain application
